Private Asset Custody for RIAs

American Estate & Trust (AET) serves as a secondary custodian for private assets, helping RIAs offer clients access to alternatives including real estate, private credit, and private funds, all within tax-advantaged and traditional accounts.

How AET Works with RIAs

- **Sophisticated Tax Strategies :** Help clients unlock tax-advantaged opportunities by integrating private assets within IRAs, 401(k)s, and other qualified accounts.

- **Scalable Operations:**Manage a growing private asset practice without increasing headcount. Automate compliance, reporting, and recordkeeping behind the scenes.

- **Automated Workflows:** Streamline investor onboarding, funding, and reporting with digital tools that reduce manual effort and eliminate administrative bottlenecks.

- **Custom Investment Opportunities:** Use AET's flexible platform to structure and launch proprietary investment offerings tailored to your clients' goals.

The AET Advantage

Whether you need a turnkey dashboard or full API integration, AET fits your workflow with automating onboarding, funding, and compliance visibility.

- Paperless account setup with built-in AML/KYC
- IRAs, 401(k)s, trusts, and individual accounts
- Integrated DocuSign with multi-party signing
- AET integrates with most major TAMP providers
- Tax Reporting – 1099 and 5498s

A Tech Suite that Works With You

Advisor Dashboard

Manage your entire book of private investments from a single interface with full visibility across deals and investors. AET integrates with platforms like Orion, Black Diamond, and Tamarac, eliminating manual data entry and reconciliation while handling custody and reporting in the background.

Client Portal

Give clients a modern experience where they can view performance, access documents and tax forms, update beneficiaries, initiate transfers, and track their full private asset portfolio in real time.
